2020
collection

Atlantis is a brand of the
Italian company **Master Italia**,
specialized in designing
and manufacturing
high-quality headwear.

ABOUT US

We were born 25 years ago from a love of headwear that became a vocation.

Our passion for caps and hats runs deep:

it gets our heads **young**,
it inspires our **mind**,
it frees our **souls**.

It is at the very core of **who we are**.

ATLANTIS

BRAND MANIFESTO

Our manifesto is one way we share our culture with the people. It's an evolving collection of thoughts and feelings about what lights our fire.

From the moment we wore it for the first time, it immediately seemed clear that it **is much more than an accessory.**

The hat is something that declares **what we are now**, but it is also **what we want to become.**

It has its own language, it is an idea that is hidden, with the visor down over the eyes. Or it is a clever thought, with the visor sideways. It is the rest after a battle and the desire to do nothing. It is the desire to do everything.

The cap is an informal type. It always has something to tell and it says it to everyone. He does it with a thousand colours, signs and shapes. Softly or screaming.

It is democratic. The rich and the poor wear it. Like five-year-olds and even fifty-year-olds. And woe to those who touch it, the hat is personal.

The hat is all this and much more.

We have done a job of it. Our mission is to ensure that everyone has the hat they want.

Because in Atlantis we make all sorts of them. If anyone can think of it, we know how to do it.

The hat is a passion we have in mind since we were born.

A man and a woman are lying on their backs on a bed of dry leaves in a forest. The woman, on the right, is wearing a bright blue zip-up jacket and a yellow beanie, and she is smiling at the camera. The man, on the left, is wearing a dark grey beanie and a dark jacket, and he is also smiling. The background is a dense forest floor covered in brown leaves and some green plants.

SUSTAINABILITY

Our products travel the world and with them our responsibility needs to soar.

We aim to reduce our environmental impact and commit ourselves to the **challenge** of contributing positively to the **future of our planet** by embarking on a new journey of sustainability which will directly and indirectly involve everyone collaborating with us.

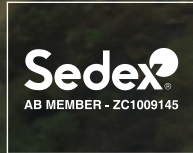

Our values reflect those of a business made of people aware of the climate crisis and the life threats. People willing to find new solutions to keep doing it and, at the same time, be more sustainable.

Staying true to our values during those twenty-five years in business has helped us create a company we are proud to run and work for. To stay in business for many years more, **we must defend the place we all call home.**

CERTIFICATES

Learn more about our journey towards sustainability and how we are taking steps to reduce our footprint across our business.

Atlantis cares about ethics

Atlantis is proudly certified by

RECYCLED POLYESTER

Fabric made from polymers obtained recycling plastic bottles.

RECYCLED COTTON

Cotton converted from production scraps or second-hand clothes.

ORGANIC COTTON

Cotton grown using low environmental impact products.

OEKO-TEX®

Certified fabrics that respect human and ecological standards.

DRY-TECH

Sweatband in polyester and elastane with antibacterial properties, for a better absorbency and perspiration.

GORE-TEX®

Extremely waterproof, windproof and breathable membrane.

GORE WINDSTOPPER®

Totally windproof fabric with maximum breathability.

THINSULATE™

Synthetic fibre used in clothing for thermal insulation.

STRETCHABLE MESH

Continuous-filament yarns with elastic character.

BACTERIO- STATIC

Silver fibre used to make yarn that inhibits proliferation of bacteria.

MATERIALS

We are constantly evaluating new materials and re-evaluating existing ones in our quest to make the best product.

THE ATLANTIS R&D

Our high-end fabrics, cutting-edge design concepts and functional technology are what set us apart and support your head.

NFC

Contactless technology that can transmit information between tag-equipped devices.

DYE-FREE

Technology that dyes fabrics by hot transfer directly to the yarn.

UPF50+

Protection layers that block the ultraviolet rays.

Q-MAX

Technology that gives breathability to the sweatband

ONE TOUCH

Process that makes caps from a single piece of fabric, free from seams and panels.

TECHNOLOGIES

In Atlantis we are always looking for the best wearable technology, not only in materials but also in **innovative solutions and processes** that encourage ourselves to think ahead and think sustainable.

DROP SHAPE STICKERS

The family of the shapes

FLAT VISOR
Typical Snap Back visor.

MID VISOR
A shape in between with the flat and curved visors.

CURVED VISOR
Typical Baseball cap visor.

DIAMOND SHAPE STICKERS

The family of the unique features

FULLY RECYCLED

A clever combination of fabrics that involving cap, mesh and closure makes the hat entirely recycled.

RECYCLED POLYESTER

The fabric, made by recycling plastic bottles, is considered one of the fabrics with the lowest environmental impact.

ORGANIC COTTON

Organic cotton is grown without the use of toxic pesticides and synthetic fertilizers, maintaining soil fertility and building biologically diverse agriculture.

DYE FREE

Eco-friendly technology that dyes fabrics by hot transfer directly to the yarn avoiding waste and emission of dyes into the water.

UPF +50

With the Ultraviolet Protection sticker you are sure that the rays are blocked by the fabric and the skin underneath your hat is excellently protected.

STRETCHABLE MESH

The mesh comes from continuous-filament yarns twisted, heat-set and then untwisted producing a spiral crimp and giving a springy character.

The thrill and the adrenaline of a race, a live event or a game, no matter the scale of it, is something that bring people together and let them live and incredible experience.

Our success stories and important collaborations are born from our ability to follow every aspect of each individual creation. From the initial spark through design and production, what guides us is our enthusiasm for innovation, constant research for the new and choice of the best fabrics.

We have developed exclusive cap lines for the racing world, top quality merchandise for the most famous names in the automotive and we have been collaborating for decades with major sport and music events worldwide.

SPONSORSHIPS

We believe in sponsorships as a manifestation of our potential and a means to achieve social and economic goals.

TRACEABILITY

A clear passport
of our products.

Our products have their own story,
with a specific identity and a certain origin.
We wish to share this story with our
consumers, providing them with full
transparency for their own brand
and awareness of their supply chain.

The Traceability guarantees a clear passport
of the product. This is the reason why
our products will include essential
information as PO number, certain place
of origin, destination of the product
and importer.

ATLANTIS CONNECT

The great Atlantis breakthrough transforming a hat into a real interactive object

Our spirit of innovation drives us to have new ideas and products that let our customer live the best experiences.

Atlantis Connect is one of the functions of our **Atlantis App** that allows you to upload and update exclusive multimedia contents on the **NFC** tag embed in our hat visors.

NFC stands for Near Field Communication and it is the contactless technology that can transmit information between tag-equipped tools, called wearable devices. Thanks to NFC your contents and stories will turn your caps into an incredible new game.

JUST TAG IT

Download our free ATLANTIS APP and dive in all the ATLANTIS CONNECT tools.
Your contents will take your cap to the next level!

Tap the top of your phone to where the NFC tag is located.

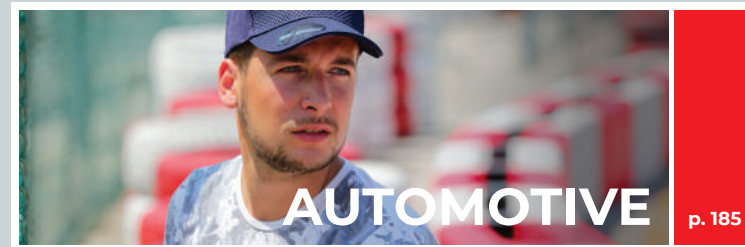

Get access to the contents and have fun!

MOODS

We created these moods to inspire you.
Dive in and find out what makes the
Atlantis collection so special.

RECYCLE

THE SUSTAINABILITY AND VERSATILITY OF THE FABRICS FOR ENVIRONMENTALLY FRIENDLY SOLUTIONS

TO DESIGN A MORE SUSTAINABLE FUTURE, WE ARE FOCUSING ON FABRICS DERIVING FROM RECYCLED PLASTIC AND COTTON

In the textile world, recycled polyester or recycled PET is considered one of the fabrics with the lowest environmental impact. The fibre is, in fact, made from polymers obtained by recycling plastic bottles.

We also believe in recycled cotton, the result of the transformation of scrapes or second-hand clothes into a new cotton fibre that can be reused in textile garments diverting many clothes from landfills.

RECY THREE

Main Fabric: 60% certified recycled cotton canvas
40% cotton canvas

Side&back: 100% certified recycled polyester

GORE-TEX

AT THE HEART OF GORE-TEX® PRODUCTS IS AN EXTREMELY THIN MEMBRANE THAT'S DURABLY WATERPROOF, WINDPROOF, AND BREATHABLE. IT HAS OVER 9 BILLION PORES PER SQUARE INCH.

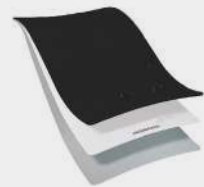

WINDPROOF

The volume of air that passes through one cubic foot of fabric in one minute (cfm) is 1.0 or less, creating a truly windproof membrane.

BREATHABLE

The pores are 700 times larger than a water vapor molecule which means perspiration passes right through. This is what makes the membrane breathable.

WATERPROOF

The microscopic pores on the membrane are 20,000 times smaller than a water droplet, which means water droplets can't pass through.

CAP GORE

Main Fabric: 100% polyester

Lining: 100% polyester

HIGH PERFORMANCE

black

GORE WINDSTOPPER

Products made with GORE® WINDSTOPPER® fabrics are totally windproof and deliver maximum breathability to keep you comfortable in cool and windy weather conditions.

TOTALLY WINDPROOF

Protects the body's warmth from the chilling effects of wind by using a totally windproof membrane.

MAXIMUM BREATHABILITY

Minimizes overheating and moisture vapor build up by allowing perspiration to escape easily through the extremely breathable membrane.

WATERPROOF

A durable outer fabric treatment (DWR) provides you additional protection of water repellency.

FREEDOM WINDSTOPPER

Main Fabric: 100% polyester

KNITTING

**RIB, PLAITED, PLAIN OR CABLE KNIT.
THE WINTER BEANIE CAN BECOME A VERSATILE ACCESSORY,
FITTING IN WITH ANY TYPE OF USE AND STYLE.**

KNIT FABRIC, A PRODUCTION PROCESS KNOWN SINCE ANCIENT TIMES.

For centuries, since ancient times, knitting was done by hand using knitting needles. Its typical great elasticity irrespective of the type of yarn used and high porosity make knit fabric unique and different from all others.

The elasticity is due to the fact that the interlocked knitted threads act like a spring, giving way under tension then returning to their initial position as soon as the tension ends.

ATLANTIS

A person is seen from behind, submerged in a body of water. They are wearing a bright yellow knit beanie and have their right hand on top of their head. The water is dark and calm. In the background, there are large, dark, jagged rock formations on both sides, creating a natural enclosure. The sky is overcast and grey. The overall mood is serene and contemplative.
